

# How to Register

To apply to any of the Chartwell Summer Programs, please register online at [www.chartwell.org/summer](http://www.chartwell.org/summer).

If you are applying to the CORE Program, upon receipt of your Registration Form, we will contact you with information on the next steps.

If you are applying **only** to one of the afternoon programs, we will forward a Summer Enrollment Agreement. Return the signed Enrollment Agreement along with tuition payment.

Please note that admission to Summer Programs is limited and on a first-come, first-served basis.

# Great Summers start at Chartwell

Chartwell School’s Summer **CORE** Program is academically focused and open to any student who would benefit from specialized instruction or would like to maintain progress achieved over the preceding academic year. It is also a unique opportunity for students not enrolled in the year-long program at Chartwell to benefit from a research-based, student-centered education.

Our goal is to guide children toward becoming healthy, curious, and confident learners. And, for students planning to attend Chartwell in the fall, the summer program is also a great way to become acquainted with our faculty, other students, and our “green” campus. This head start ensures a smooth and successful transition.

## Reading Clinic

The Afternoon Reading Clinic provides the opportunity for students to benefit from individualized reading tutorials. This additional hour will provide children the opportunity to significantly increase their reading strategies. Due to popular demand, the Reading Clinic will be offered in BOTH sessions. Students may enroll for both sessions if desired, thus increasing the benefit. The second hour will be spent enjoying outdoor activities including mountain biking, hiking, or cooperative games.

**Note:** Only students enrolled in the **CORE** program are eligible to enroll in the Reading Clinic.

## 4 Week CORE Program: \$1,800

**Orientation:** Monday, June 22 | 8:30 am to noon (recommended for at least one parent/guardian)  
**CORE:** June 22 to July 17 | 8:30 am to 12:30 pm | Monday through Friday

**Literacy Skills:** Students develop reading skills, reading comprehension skills, writing, organizational skills, and study skills.

**STEAM/Makers program:** Students practice principles of science through technology, engineering, art, and mathematics while answering an essential question using a hands-on and project-based-learning model.
